**RE: Engagement in the 20 Year Forest Management Plan for FML2**

**To Whom it May Concern:**

Nisokapawino Forestry Management Corporation (NFMC) is undertaking the development of an updated 20 year Forest Management Plan (FMP) for Forest Management License #2 (FML2) that will set a sustainable management direction from 2025 to 2044. This FMP development project must be submitted by NFMC to the Manitoba Government before January 1, 2024.

As part of that development, we will keep all Communities and resource users up to date with information throughout the process and provide opportunities to answer questions and gather feedback. Starting in early 2022 we will be organizing information sessions in Communities across the Licence Area. Initially we will schedule virtual meetings due to the Covid-19 pandemic situation and our desire not to facilitate additional opportunity for transmission of the virus. We are intending to provide opportunities for in person engagement sessions as the situation changes.

A Terms of Reference, which identifies how this project will be completed, including commitments of both the proponent (NFMC and Canadian Kraft Paper) and the Manitoba Government, for this 20 Year FMP is nearing completion and will be posted to the Public Registry for a public comment period.

If desired, I am happy to meet to provide information with regards to the FMP development process, Nisokapawino Forestry Management Corporation, and how the development of the FMP relates to the Forest Management License. Additional information about NFMC and the 20 Year FMP can be found on our website: [www.niso.ca](http://www.niso.ca) or you can contact me directly at 204-623-8510 or e-mail at [Andrew.Forward@niso.ca](mailto:Andrew.Forward@niso.ca)

Thank you,

Andrew Forward  
General Manager
